## NOTICES

\*All listed performance figures are approximate values. They depend on vehicle-specific details such as the vehicle type, equipment, tare weight, rear-axle ratio, wheel-tyre combinations, transmission type and aerodynamic equipment of the specific car. Figures about performance increases and/or performance kits are to be understood as average values. Test-dependent divergences of +/- 5% are possible. Figures about the overall performance of changed factory engines through performance increases and/or performance kits are based on the manufacturer's data listed in the vehicle registration document. They can vary by +/- 5%. BRABUS does not warrant any further reduced performance of factory engines. Specifications are subject to change without prior notice. These values were determined using the prescribed measurement procedure (directive 80/1268/EEC in its currently valid version). The details are not based on a single vehicle, and do not form a component of the offer, but serve only for purposes of comparison between different vehicle types.

\*\*All prices are quoted ex works.

## EFFICIENCY & FUEL ECONOMY

---

Fuel Economy\*

---

city l/100km

---

highway l/100km

---

combined l/100km

---

CO<sub>2</sub> g/km

---

## CO<sub>2</sub>-EFFICIENCY\*

\* Determined based on the measured CO<sub>2</sub> emissions in consideration of the vehicle mass.
